

Project Profile – Carmel Clay Schools

Customer Info:

**Carmel Clay Schools
Carmel, IN**

**Contract Amounts
(total past six years):
\$550,000.00**

**Period of Relationship:
2003 to Present**

C-CAT, Inc. has been involved in many projects for Carmel Clay Schools. Our history with Carmel Clay Schools began in 2003 when we provided and installed the structured cabling systems for Orchard Park Elementary and Smoky Row Elementary Schools. Our most recent project ended in December 2008 when we installed new voice and data cabling as well as fiber optic backbone for the existing football stadium to insure coverage for their ESPN High School Football coverage.

Orchard Park 2003

C-CAT installed a new cabling system throughout entire school. This system consisted of over 300 CAT 6 cables, multimode fiber and copper backbone within several telecommunication closets.

Smoky Row 2003

C-CAT installed a new cabling system throughout entire school. This system consisted of over 500 CAT 6 cables, multimode fiber and copper backbone within several telecommunication closets.

Carmel Educational Services Center 2005

C-CAT installed a new cabling system throughout the center. This system consisted of over 300 CAT 6 cables, multimode fiber and copper backbone within several telecommunication closets.

Carmel WAN Project 2005 (Carmel, Clay and Creekside Middle Schools and Westside Transportation Facility)

C-CAT installed a new fiber backbone at each middle school consisting of 6 strand multimode as well as additional coax and CAT 6 cabling.

Elementary Schools Project 2008 (Cherry Tree, Mohawk Trails, Prairie Trace, Towne Meadow and Woodbrook)

C-CAT added new cabling throughout five elementary schools. This project consisted of over 600 CAT 6 cables and multimode fiber.

Carmel Clays Schools is a very important customer to C-CAT and we are glad to have served them throughout the past six years and are proud they continue to choose C-CAT to provide communication services.

To Whom It May Concern:

In the summer of 2003, C-Cat Communications completed the structured cabling for Orchard Park Elementary School and Smoky Row Elementary School. Both schools are located in the Carmel Clay School District. Both schools required removal of existing wiring and one building required the relocation of the main distribution frame including the telephone switch. C-Cat did a very good job in both buildings. They followed our specifications to the letter and completed the work in a timely fashion. They also went above and beyond to find solutions to problems that arose during the project. Mark Land and C-Cat are excellent. I am pleased to recommend them.
